

EXECUTIVE CERTIFICATE IN DIVERSITY AND HEALTH EQUITY

About the Program

The **Executive Certificate in Diversity and Health Equity (ECDHE)** is a 10-month fellowship that provides health care professionals the competencies to effectively lead diversity, health equity, inclusion and justice practices in their hospitals and health systems.

The fellowship prepares clinical and non-clinical diversity practitioners to lead the work in the health care field.

Fellows will learn and connect with seasoned experts that possess breadth and knowledge of DEI and health equity work.

The curriculum includes a comprehensive view of DEI, health equity and health care strategy.

Program Goals

The fellowship offers a blended learning curriculum that aims to strengthen the skills of diversity, health equity and inclusion leaders so that they can create change at their hospitals and health systems.

The Opportunity

The Executive Certificate in Diversity and Health Equity is the **only national diversity certificate that is endorsed and sponsored by the American Hospital Association.**

The Structure

The hybrid certification program offers both human resources and clinical applications of DEI principles and practices. The program's faculty is composed of subject matter experts and practitioners in the field.
